

Crystal Transfers

Crystal Transfers are ideal for Hotfix application on all kinds of textiles. They are available in a large range of motifs and numbers of rows and are made up of different articles from the Flat Back Hotfix assortment. Featuring designs from our in-house design team, they can include XIRIUS and XILION Roses, or Creation Stones, as well as Metallics and Cabochons.

With Crystal Transfers Unlimited, Swarovski presents a spectacular new production technology that makes it possible to combine up to 18 different elements in a single motif, doubling existing design possibilities.

The Crystal Transfer motifs offered in the Standard Collection show a variety of sparkling design possibilities.

For details on available colors and effects for each article within the product groups, please see the product matrix of the respective item in the Collection 2021. For color and effect samples, please see the corresponding color chart.

The plating resistance of effects is tested according to Swarovski's plating guidelines (SWAROVSKI.COM/S-PROFESSIONALS). Customers are advised to carry out their own tests if their plating parameters diverge from Swarovski plating guidelines.

¹ Majestic Blue's intense ultramarine hue is difficult to recreate accurately in print due to the fact that the CMYK color spectrum is used in the printing process. In order to get a truer impression of its color, please use RGB digital pictures or, ideally, ask for actual samples.

² Only available in limited sizes.

Classic Colors/Effects: This color range offers a wide choice of traditional Swarovski crystal colors and effects.

Exclusive Colors/Effects: This color range is offered exclusively by Swarovski.

Colors and effects can appear different when illuminated with different light sources. Swarovski uses standard light source D50 for color decision and comparison. Slight changes in shades are unavoidable. Colors may vary according to cut and foiling.

The composition of Advanced Crystal is compliant with regulatory industry norms and laws regarding the restriction or prohibition of certain substances in the most relevant segments of our customers. Please note that the compliance of the crystal colors Light Siam and Siam varies according to certain industry regulations. Those regulations are indicated with * in the compliance overview. Indian Siam and Scarlet (option to Lt. Siam) conform to all CLEAR-lists. For further information please visit swarovski.com/s-professionals

Crystal Transfers Unlimited

With **Crystal Transfers Unlimited**, Swarovski presents a spectacular production technology that opens up an unprecedented range of motif designs. Up to 18 different elements – crystals, colors, sizes, and shapes – can be combined in a single motif, doubling design possibilities and offering stunning 3D surfaces, long rows, and even

“floating” effects. With a tight compound that has reduced the distance between elements to a minimum, **Crystal Transfers Unlimited** also offers the highest setting quality on the market.

The Flat Back assortment is the same as our existing standard Crystal Transfers.

Standard Collection

Crystal Transfers are available in a range of sizes and motifs to suit a variety of segments.

Numerous motifs and rows in all sizes and styles provide a creative pool of design ideas. The assortment is a balanced mix of large and small motifs in all price categories, as well as a good representation of all the different elements that can be used in Crystal Transfer motifs.

SPECIAL MOTIF SERVICE

A special motif is any individual design created by the customer that differs to the Crystal Transfers Standard Collection. This service opens up an abundance of customization possibilities. You also no longer need to set your motif by hand. You can rely on Swarovski's long-standing experience and design expertise and can order a convenient, ready-to-apply design. A range of customization options for existing motifs is available (see

"Customization Possibilities" below). You can also submit design sketches that meet your special requirements – such as a brand image or an image for a particular sales campaign or garment. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Customization Possibilities

- Change of elements in an existing motif
- Change of size of an existing motif
- Logos or brand names
- Creation of pieces or rows
- Up to nine colors possible per Transfer motif

For Crystal Transfers Unlimited

- Up to 18 elements possible per transfer motif
- max. motif size: 470x205 mm

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Crystal Transfers, Crystal-it, Crystal Mesh, etc.). You will then receive a quotation including your article number,

minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes are required. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. When the sketch is submitted as a hard copy by fax or email, please include a scale

legend (e.g. copy/scan with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note that ordering a design does not grant exclusive production of this design to the customer.

Crystal–it Infinity

Crystal-it Infinity

Crystal-it Infinity is made up of Flat Backs in different shapes, sizes, and colors (up to 9 elements per motif possible).

It is an easy-to-apply product thanks to the specially developed adhesive on the back of the stones. You can create your own individual and exclusive Crystal-it Infinity designs with Swarovski's special motif service.

SPECIAL MOTIF SERVICE

A special motif is any individual design created by the customer that differs to the Self-adhesive Elements Standard or Crystal Inspirations Collections. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's long-standing experience and design expertise. A range of customization options for existing motifs is also available (see

"Customization Possibilities" below). You can also submit design sketches that meet your special requirements, such as a brand image or an image for a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Customization Possibilities for Crystal-It Infinity

- Change of elements and colors of elements of an existing motif
- Change of size of an existing motif

- Logos or brand names
- Up to 9 different elements per motif are possible

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Crystal-it, Crystal Fabric-it, Crystaltex-it, Crystaltex-it Chaton, Crystal Fine Rocks-it). You will then receive a

quotation including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes are required. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If you are sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note that ordering a design does not grant exclusive production of this design to the customer.

If detailed information on potential tolerances is needed (e.g. cavity production for metal parts), please contact Swarovski who will enter an application request into our application database.
